Dear Sourabh S.,

Congratulations! We are pleased to inform you that you have been admitted to the MSCS program in the Department of Computer Science and Engineering at Texas A&M University. Admission to the Department of Computer Science and Engineering is very competitive and there are only a limited number of openings available each year. We feel that your talents and our program are an excellent match and we look forward to you joining us for the Fall 2016 semester.

We encourage you to apply for various fellowships and assistantships available in the department. You can apply for departmental scholarships and assistantships by completing the form on-line at: https://apply2.cse.tamu.edu. You can only complete this form after you have accepted admission. You may also contact faculty with matching research interests regarding research assistantships. A listing of our faculty and their interests can be found at: http://www.cse.tamu.edu/research/interests.

The offer is valid until *April 15, 2016*. We encourage you to respond as early as possible. We will assume you have declined this offer if no response is received by the given date. To accept this offer, please _sign_ _both_ this letter and the Terms and Conditions in the designated area and return it to Mrs. Karrie Bourquin via fax at 979-862-3684, emailed to grad-advisor@cse.tamu.edu or mailed to the address listed below. Further details about the terms and conditions of the offer can be found on the attached pages. Once you accept the offer, additional information on joining our department will be sent to you.

When you join our department, you will have an opportunity to work with excellent computer science and computer engineering faculty members who are recognized for contributions to their fields. Faculty members hold well over 60 important and influential professional positions, including editorial positions for scientific journals and general chairs of technical conferences. Seventeen faculty members have been presented with PYI/NYI/CAREER awards by the National Science Foundation in recognition of their potential as young stars in science and engineering. Our research in computer science and computer engineering is well known throughout both the international academic community and global industry.

We commend you on your academic success and look forward to your contributions to the research in our department.

Sincerely,

Dilma Da Silva
Holder of the Ford Motor Company Design II
Professorship and Department Head
